Latest Base Ball Developments Running Meeting in May-Result of the Clifton Races-To-Day's Entries at New Orleans -- General Sporting

For the coming summer the outlock is quite promising for the sport loving people of the national capital. Horse racing and base ball seem to predominate, but the lovers of milder out-door enjoyment will find that boating, lawn tennis, archery, and kindred amusements have a host of fol-lowers, who are most enthusiastic in regard to their favorite pastime. From the indi-cations, however, it would seem that base ball and horse racing have the call in pub-lic opinion, and the followers of both are

he complete the call in public opinion, and the followers of both are undivided in the belief that Washington will have "the best that is offered."

The representative base ball club is doing all that, under the circumstances, could be expected, and will no doubt, by the lat of June, have a promising team in the field. The major part of the players under contract are now in the city, and are daily practicing on the diamond field when the weather will permit. Those who have not yet srrived will be in the city in all probability before the lat of April, and if good management is shown a vigorous practice campaign will be inaugurated.

Under the direction of President McGuire and Secretary McIntyre the National Jockey Club are getting matters in ship shape preparatory to having one of the most successful running meetings known to Washingtonians on May 3, 4, 5, and 6, and unless at signs fall the spring contests at Ivy City will eclipse all previous similar events. Not only are the horses entered in the stake races well known and eventy matched, but they are also dear to District patrons by reason of being great local favorites of those among our citizens who admire the uncertain events that take place upon the turf.

### THE CANADIAN MILITIA.

### Estimate of the Smallest Number Re-

quisite for Frontier Defenses. A paper entitled, "Mobilization and Con-centration of the Canadian Militia for Defense of the Frontier," printed in the current issue of the "Journal of the Military Service Institution," has caused no little comment in both military and civilian circles. The writer, from a Canadian point of view, in fixing the number at the smallest of view, in fixing the number at the smallest possible limit for the defense of a line extending from Quebec to Detroit, bases his calculation on a force of 150,000 men. This force is divided as follows: 50,000 at Montreal; 10,000 at Quebec; 10,000 at Kingston, and 50,000 at Toronto and in the western prulingula. The remaining 30,000 to be used as a movable column along the north bank of the St. Lawrence. The article also contains a military map showing military districts, works, and the disposition of the available force to the greatest allyandage. PARAMOUNT TO THE LIEN.

Case Where Certain Claims Are Prior and Superior. In the Supreme Court of the United States yesterday, in the case of the Fourth National Bank of New York against Chas. G. Francklyn, executor of Edwin Hoyt, Occeased, Justice Gray delivered the opin-

G. Francklyn, executor of Edwin Hoyt, deceased, Justice Gray delivered the opinion of the court affirming the decree of the circuit court for the southern district of New York made Oct. 9, 1886, in so far as it decrees that the claims of the five appellees are prior, superior, and paramount to the lien of the mortgages or deeds of trust mentioned in the decree of Feb. 16, 1886, and of the bonds secured thereby, and in so far as it provides for the payment to the appellees out of the fund of the registry of the court of the several sums of money specified in the said decree. This was an action at law brought by the Fourth National Bank sgainst the executor of Edwin Hoyt, a stockholder in the Atlantic De Laine Company, to recover the amount of a debt for upwards of \$100,000 due from that corporation to the plaintiff on promissory notes made and payable in December, 1873, and January, 1874.

The court held that the provision of the Rhode Island statutes which made the stockholders of the Atlantic De Laine Company liable for its debts was coupled with provisions prescribing the form of remedy, which still remain in force, except so far as them have been modified by the later statutes of the same state. By the decisions of this court, as well as by those of the courts, both sate and federal, held within the state and district of Rhode Island, and of the highest court of Massachusetts, where these provisions had their origin and their first judicial construction, this liability can be enforced only in the mode prescribed by the statutes of Rhode Island. The present suit, therefore, not being a bill of equity nor an action upon a judgment against the corporation, which are the only forms of remedy authorized by these statutes, but being an independent action at law on the original Hability of the stockholder, cannot be maintained, and the circuit court rightly so held.

Virginia Debt Question.

The Alexandria Gazette says that from grivate letters received from Richmond "the action of the Virginia legislature in regard to the debt question has been practically agreed upon, and will be as follows: The rejection of the governor's recommendation for the appointment of a commission; a bill providing for a constitutional amendment for repudiating all the debt unfunded into Riddleberger bonds, and a bill making the tax bills payable in such small amounts as to preclude the use of councils. All of which, it is needless to say, will be null and vold, and can only put the state to additional expense and postpone the day of that settlement." the action of the Virginia legislature is

How They Can Be Made Interesting and Acceptable. The series of entertainments which have made the "Travel Club" famous for the

made the "Travel Club" famous for the past few years is suggested to the managers of the lecture course at the national museum as a plan worthy of imitation. The "Travel Club" organized with a small number of persons for the purpose of telling what they saw and heard in foreign land. The early meetings were so successful that the membership increased rapidly, and a programme was determined on to enlarge upon the subjects to be discussed at each gathering of the club. It was decided to take each country in Europe and tell everything about the same. As an example Italy was traversed by the club, and essayists told about its people, its government, its learned men in all times, its statesmen, its painters and artists, its musicians and poets, its noted women, in fact all that pertained to men and affairs of that historic land. In this way the club has quietly gone on diffusing knowledge in a popular way, isstructive and interesting, and as it has been found so beneficial and acceptable to a few, it is reasonable to suppose that the same course if pursued in a broader scope through the instrumentality of the directors of the national museum would prove a pleasure to those attending the lectures at that place.

There may be good reasons offered by the directors in opposition to this plan, and it may not be possible to put it in operation this season, but it is belleved that if an effort was made at the next session of Congress to get an appropriation to carry out a series of popular lectures at the museum on a basis of public instruction that the sarue would be obtained and the usefulness of that popular institution would be found to be four-fold. The lecture on abstrues subjects are better suited to the society room than to the public histine in order to allow him to finish.

The lecture following in the course, while ably written, was upon a subject that no one understood, and was Interiorded with scientific phrases that required some one equally learned to interpret, and the large audience was "bored" for two bou past few years is suggested to the managers of the lecture course at the national mu-

Mortgage Lien Takes Priority. The Supreme Court of the United States yesterday reversed the decree of the circuit ourt in the case of Henry H. Porter against court in the case of Henry II. Porter against the Pittsburg Bessemer Steel Company, Ilmited, the Cleveland Rolling Mill Company, the Smith Bridge Company, Crear, Adams & Co., and Volney Q. Irwin. This suit grew out of the claims of the appellees against the Chicago and Great Southern rallway, which was bought by Porter at a foreclosure sale on Mar. 27, 1886. On Aug. 31, of the same year, the master filed his report under the reference in the foreclosure decree, allowing the claims of the appellees in whole or in part, and the court found them entitled to certain sums amounting in the aggregate to about \$80,000, and decree! that these claims of the appellees were prior to the lien of the mortgages or deads of trust mentioned in the decree of sale.

"The Universalists' Church," by Rev. E. H. Capen, D. D., third article of "Religious Denominations," begins the number. It is clearly and ably written and valuable as history. Portraits illustrate it of Rev. John Murray, Rev. Hosea Ballou, and Rev. E. H. Chapin: also, two pictures of churches.

"A Bit of Old China" is an account of the ancient time of that curious land. "The Simsbury Copper Mines," of Connecticut, is the next paper, descriptive of those darksome depths and of a prison established therein in 1773, after the abandonment of the mines for working purposes. This place some depths and of a prison established therein in 1773, after the abandonment of the mines for working purposes. This place of punishment for "flagrant and atroclous villains" was conducted with such extreme cruelty that the most "flagrant and atroclous villains" of all were surely the conductors themselves. The infernal region mentioned is no longer used for torture, or for any purpose, "Faith-Cure" presents the progress of that sect in Boston and vicinity, and represents their churches, their "Cancer Home," their "Children's Home," "Concumptives" Home, "&c., where prayer is the only remedy employed for disease. Boston is very wise, we know, and sometimes, we guess, very otherwise, "Rev. Alonzo A. Miner, D. D., Li. thus charged with his crime, repents, we say: "Benedicite!"

A full page portrait of Ernst Eberhard, Mus. Doc., a representative American musician, is the introduction, followed by a fine sketch of life and works. Three other portraits are given, German composers—Suppe, Millocker, and Genee. Various interesting papers appear relating to music and musical news and trade. The cian has taken high position and is able to maintain it.

HERALDS OF FASTER. Certainly an exquisite Easter production, and emphatically sure to please any fair one to whom it may be presented. The poem is a beautiful composition, and the illustrations, daintily colored, are superb, while the binding is very tasteful.

THE MUSICAL HERALD, March. 19 cents Boston: Musical Herald Co., Franklin Square, Publishers.

Of great interest and value to every lover of the barmonies-which should mean everybody. Each branch of the art universal is ably treated. The queer Chinese on the title page, with their queer Chinese on the creaming the page, with their queer Yuch Ch'in, or banjos, call attention to a halt till the text tells all about them. Much musical news is related. The "Review of New Music" is doubtless correct in judgment. yet not invariably complimentary; for

"I Know You'll be Thinking of Me." "I Know You'll be Thinking of Me."

This is a campaign slander. We shall never be thinking of the composer or of the song—if we can help it. But the composer ought to be thinking of studying music. If I e does, however, he will probably not write any more such songs.

CONSULAR NOTES

We republish the diplomatic and consular bill this week by request. Consul Merritt, of Aix la Chapelle, is in the city. He has accomplished some ex-cellent work in the interest of our customs revenue, during the sixteen months he has been in the service.

Charles Neuer, United States consular Charles Neuer. United States consular agent at Gera, Germany, has received over two hundred dollars from the inhabitants of that place for the benefit of the Charleston earthquake sufferers. This generous contribution from our German friends shows that the world after all is but a common brotherhood of men. We are pleased to report that the voice of suffering which comes to us from the classic shores of the Mediterranean has been heard with general sympathy throughout our country, and very substantial collections are being made for the relief of the sufferers.

the relief of the sufferers. the relief of the sufferers.

Consul Rice, of Switzerland, has done eminently good work for the government in detecting and correcting the undervaluation of invoice prices at his post. It is said that he has saved to the customs revenue of our country over \$300,000 during the past three years. This is certainly something for our parsimonious legislators to consider when they attempt to cut down the salaries of our gonsuls. If they will only inform themselves of the valuable work performed by the consul corps there will be no trouble about getting appropriations large ecouch to carry out some needed improvements in the service. look upon the pictured faces of Sullivan and

Superior to Anything.

A prominent business man in Wilmington, bel , in speaking of a cure of cancer on himself, writes to the Moraing News of that city:

1 can say further that my case is not an isolated one. A lady, a customer of mine, was suffering from a cancerous affection of the nose. She had spent a great deal of monoy and time running to Philadelphia to consuit the best physicians there, but could get but little or no relief. About a year ago I told her of my case, and induced her to try the S. S. sremedy. She did so, and in a few weeks was much better. She had several operations performed, but finally she threw all aside but the S. S. and in two months from that time was thoroughly cured.

Another lady suffering from an abscess on her arm had been doctoring for a long time in this city. Chester, and Philadelphia, but could not get any rellef, apparently. She had failen away to a mere shadow of her former self, and could scereely eat or sleep. She commenced to take the S. S. s. medicine, but was so reduced is flesh that she had a little stomach trouble at first. She persisted, however, and after the third bottle she declared it had done her more good than anything else she had evertried. I now understand that she is entirely well, and is loud in her praise of S. S. S. I believe the Swift Specific Company's blood medicine, known as S. S. S. is superior to anything of the kind known in the market, and can cheertuily recommend it to any one suffering from diseases of the skin or blood. Treatise on Blood and Skin Diseases insaled free.
